

Non-corrosive aluminum can be custom painted to your color preference.

Custom sizes to fit wherever you want.

UNIVERSAL TENSIONED MEDIA SYSTEM

OVIO's revolutionary framing technology for large-format advertisements is designed for professionals. The frame's robust design allows for an ultra-simple, user-friendly placement. The exclusive ratchet clip technique goes up quickly and tensions the media perfectly, every time.

Clean and discreet, OVIO is the ideal support structure for visual displays. The grommets and fasteners are completely masked for a sleek presentation, and it's never been easier to install and take down.

TOP PRODUCT BENEFITS

- 1 Allows for **simple, user-friendly installation**.
- 2 **Goes up quickly** and **gives the media perfect tension**, every time.
- 3 **No hinges or moving parts**.
- 4 Can be installed **flush on any wall**, or as a **stand alone structure** with print on both sides.
- 5 Standard surface is a **milled finish** which can be **painted or decorated** to match any surface color and texture.
- 6 **Withstands major winds, freezing weather, and extreme heat** (-31° F to 176° F).

OVIO™ FRAME COMPONENTS

The new OVIO stretched media system offers impressive flexibility and absolute effectiveness.

Ovio was developed by Vedi of Belgium and is being offered exclusively in the USA by Britten. Years of thought and discussion by designers have resulted in a system that is ideally suited for large format advertisements.

A basic kit includes a single profile section and a few assembly parts, which makes setting up OVIO® frames easy. Installation is also simpler as there are far fewer fasteners than other systems.

The ease of this system saves precious time while assembling, therefore reducing installation costs significantly.

Britten produces everything in-house, making planning and coordinating your project easier than ever. We print directly to polyester materials with eco-friendly inks for Infinity frames (and many other applications). Contact Britten to order media at 855.763.8205.

OVIO frames allow for many versatile applications

Grommets are spaced evenly every 16"

OVIO clips fasten into the grommets

OVIO clips push into position
